

White Automatic Hand Sanitising Station

Automatic hand sanitising station to help prevent the spread of germs.

A touch free, floor standing hand sanitiser station designed to be located where hand hygiene is important such as entrance ways.

The 1 litre battery-operated dispenser, finished in white, features a sensor which automatically dispenses 0.08ml of sanitiser onto the palm of the hand.

The stand and base are made from steel, with an ABS drip tray, and features an optional sign.

The station measures 36x36x128cm, and takes 4x C batteries (not included).

Key features & benefits

- Touch free dispenser of sanitising solution.
- Modular kit that can be positioned anywhere.
- Promotes good hand hygiene.
- Powder coated steel stand with drip tray.
- Comes with an optional sign.

How to use

To use, apply to clean, dry hands. Rub the hands, wrists, between the fingers and around the nails for at least 30 seconds.

How to open the dispenser

Use the key provided to press down at the top of the front cover where the key slots are located. Hold the dispenser cover from the top and gently pull the cover down and towards you – the cover is hinged at the bottom of the dispenser.

How to refill

1. Open the dispenser with the key supplied.
2. Extract the bottle complete with pump.
3. Remove the cap, refill and replace the cap.
4. Close and lock the dispenser.
5. Wait a couple of seconds then test the dispenser to make sure it is working properly.
