# Shield Oxy-gen Powered Air Freshness Dispenser

# An anti-vandal and fireproof fragrance system designed for style and protection.

The Shield air freshness dispenser is a robust, anti-vandal and fire-retardant stainless steel dispenser that is used with the Vivalle fragrance cartridge.

Made of robust stainless steel with anti-vandal locking device, Shield looks stylish in every setting. And, the system's smooth contours means that potential vandals are unable to grip and tamper with the system. Shield adds style to your facility without compromising security and effectiveness.

Shield uses patented Oxy-Gen powered technology to deliver consistent and continuous levels of fragrance and odour control for the full life of each refill, while its unique ventilation design ensures maximum airflow.

## Key features & benefits

Odour control

Long lasting

Eco-friendly

Lockable

- Continuous fresh scent and odour control system
- Eliminates odours and releases fragrances
- Oxy-gen powered fuel cell technology
- Anti-vandal locking design
- Built in alerts for fragrance and batteries
- More fragrance oil than a standard metered aerosol can
- Eco-friendly and doesn't contain VOC's or propellants unlike aerosols.

## Eco-friendly system

The stainless steel body of the system reduces the usage of plastic. Oxy-Gen powered refills do not have harmful emissions, solvents or propellants. Low VOCs mean it is ideal for green building and LEED certification requirements. The system can reduce the amount of VOCs emitted by up to 90% when compared to aerosol cans. The refill is 100% recyclable and safe to dispose of in your regular plastic recycling waste.
