Microtex mopping system

An easy to use flat mopping system which requires no buckets and less water.

No buckets, less water, no spills, no trips! The Microtex flat mopping system is perfect on wooden or non-slip floors. The multi-angled holder makes skirting boards easy to clean. The kit is to be used with a spray bottle to dampen floors. The microfibre technology lifts dirt and you can wash the pads many times.

Washing, care & maintenance

Never wash mop heads in bleach or use fabric softener as this will clog the fine fibres and the pad will not work the same again. When washing, try to keep them away from non-woven fibres as this will stick to the microfibres.

Key features & benefits

Microfibre
Cleaning

No chemicals
required

Use wet
or dry

- Fantastic and easy to use on non-slip or wooden floors
- Multi-angle swivel head holder, making hard to reach areas easy to clean
- Washable
- Pre-soak or use with spray bottle
- Ultra thin lightweight frame very easy to use
